

Leveling Instructions

Leg levelers insure that the doors/drawers on this piece are properly aligned. When the piece is leveled it sits squarely on the floor and will not rock from side-to-side. Please follow these simple instructions to level your piece.

Leg Levelers

- Leg levelers are pre-installed on the bottom of each leg.
- Once the piece is in place, adjust the levelers by turning them in or out.
- It is important to adjust the levelers when you first set-up your new piece so that the doors and drawers align evenly in the frame.

The logo for Copeland Furniture is a dark red rectangle. The word "copeland" is written in a white, lowercase, sans-serif font. Below it, a thin white horizontal line separates the word from "FURNITURE", which is written in a white, uppercase, sans-serif font.
