

Assembly Instructions for Moduluxe Storage Beds

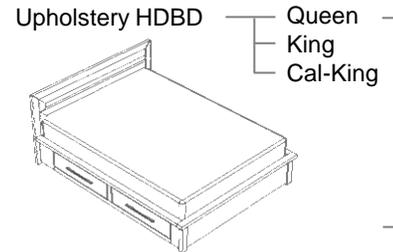

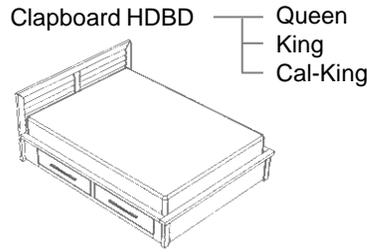

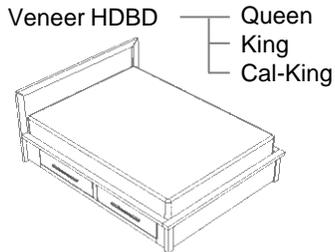

Instructions for the bed types pictured below. Please identify the following items.

Hardware included:

- 1" machine screws (4)
- 1 ½" pan head screws (16)
- Allen wrench (1)
- Rail hardware kit (1)

Components included:

- Headboard (1)
- Footboard (1)
- Storage rails (2)
- Plywood ends (2)
- Support legs (2)
- Plywood decks (7)

Notice: Beds must be disassembled before moving to avoid damage. Never attempt to move the bed while it is assembled. Failure to do so would void the warranty.

Tools required

Phillips head screw driver

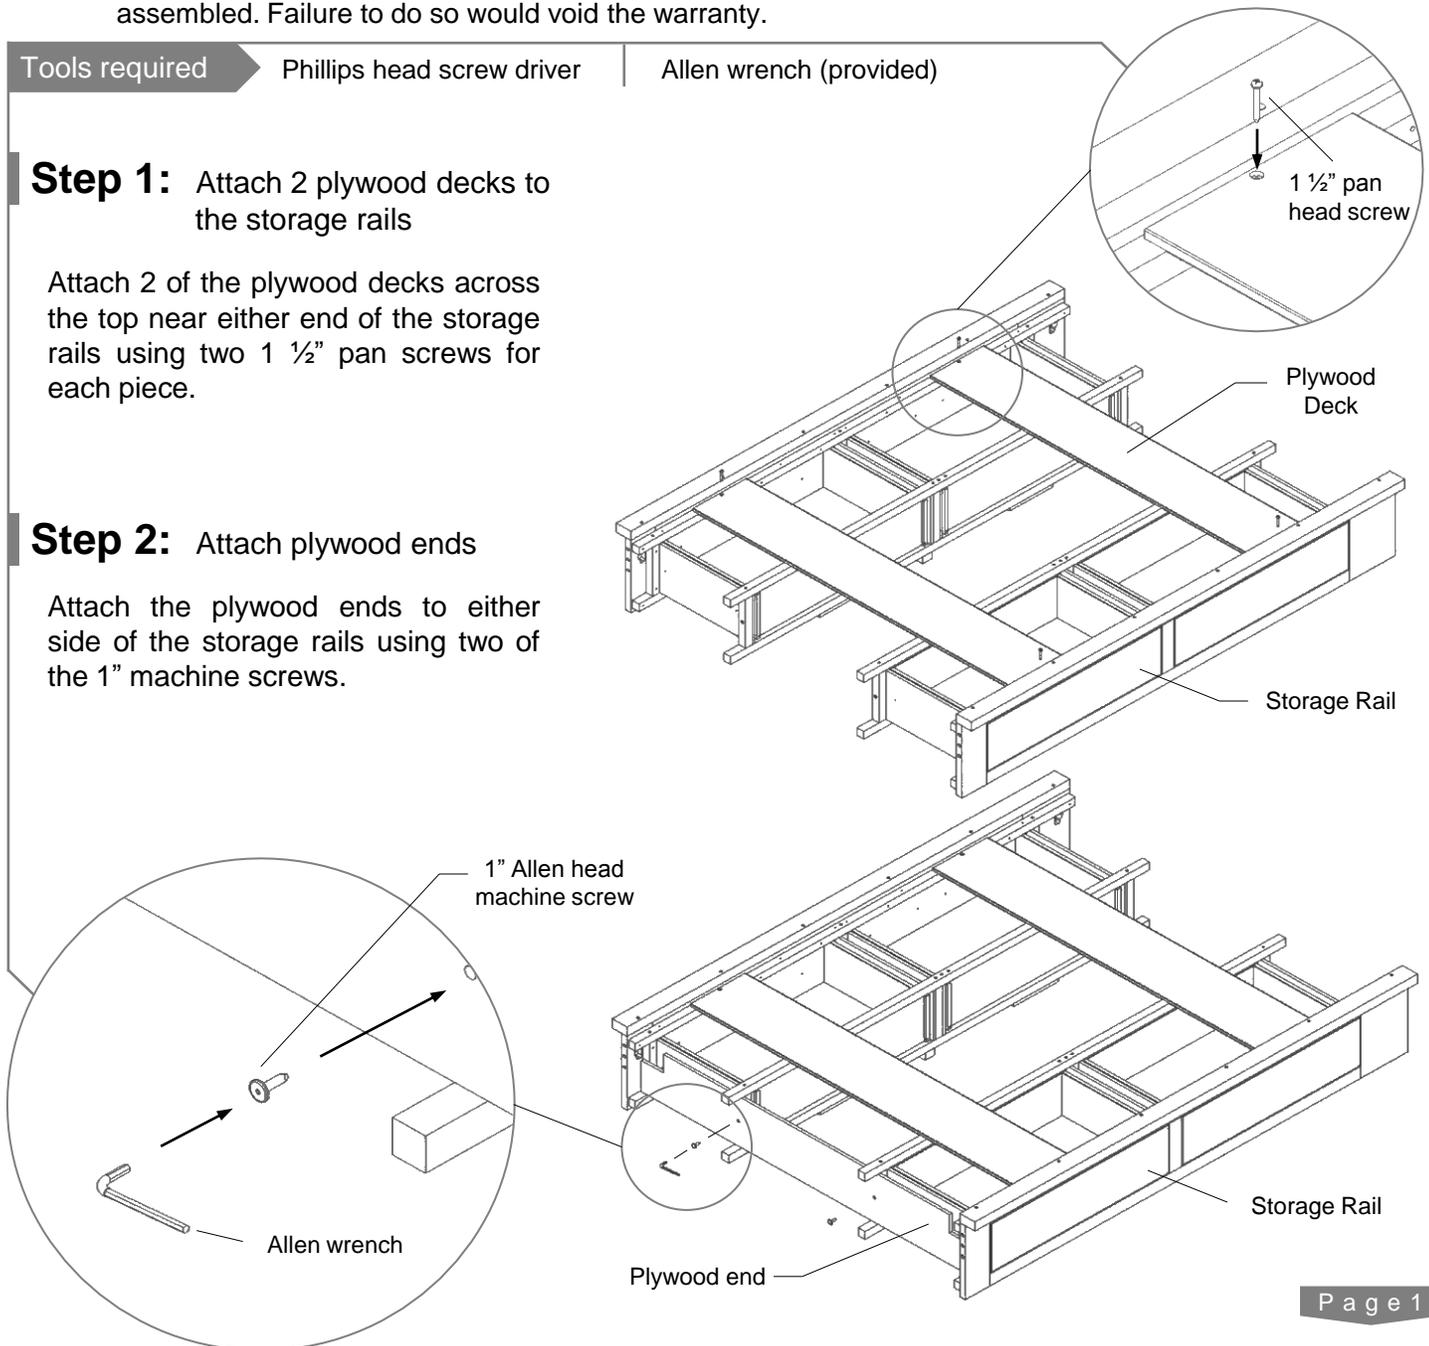

Allen wrench (provided)

Step 1: Attach 2 plywood decks to the storage rails

Attach 2 of the plywood decks across the top near either end of the storage rails using two 1 ½" pan screws for each piece.

Step 2: Attach plywood ends

Attach the plywood ends to either side of the storage rails using two of the 1" machine screws.

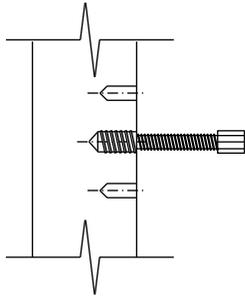

Tools required

Phillips head screw driver

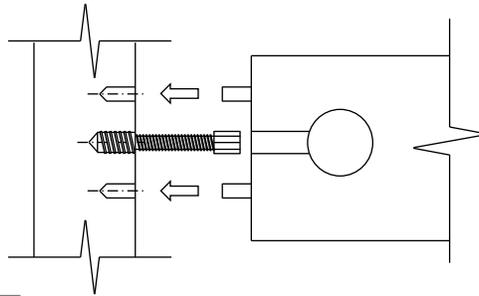

Step 3: Install the headboard and footboard

Attach the headboard and footboard to the storage rails by following the steps below. Be sure to thread the nut onto the end of the studs before attaching the side rail to either the headboard or footboard.

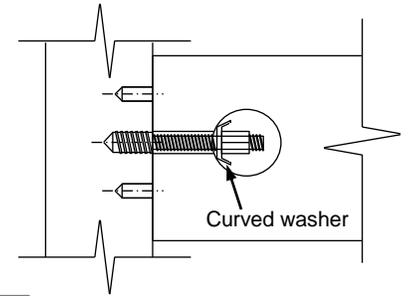

1

Screw the threaded stud into the insert until it stops. Put the nut 3 to 6 turns onto the end of the threaded stud.

2

Slide the rail over the nut and into mating holes for dowels on the bed post.

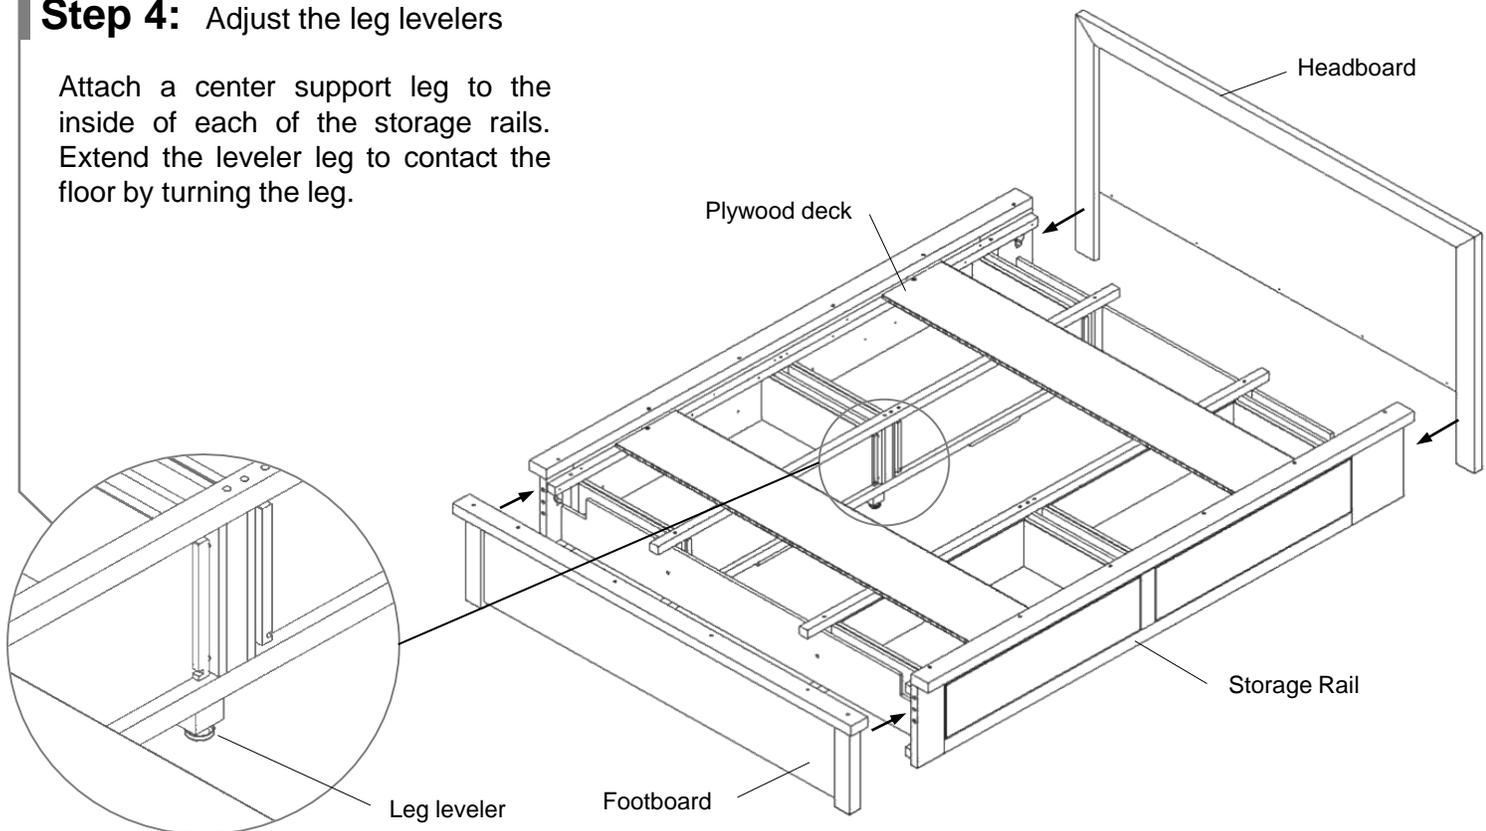

3

Slide the curved washer in place as shown and tighten the nut with the wrench provided.

Step 4: Adjust the leg levelers

Attach a center support leg to the inside of each of the storage rails. Extend the leveler leg to contact the floor by turning the leg.

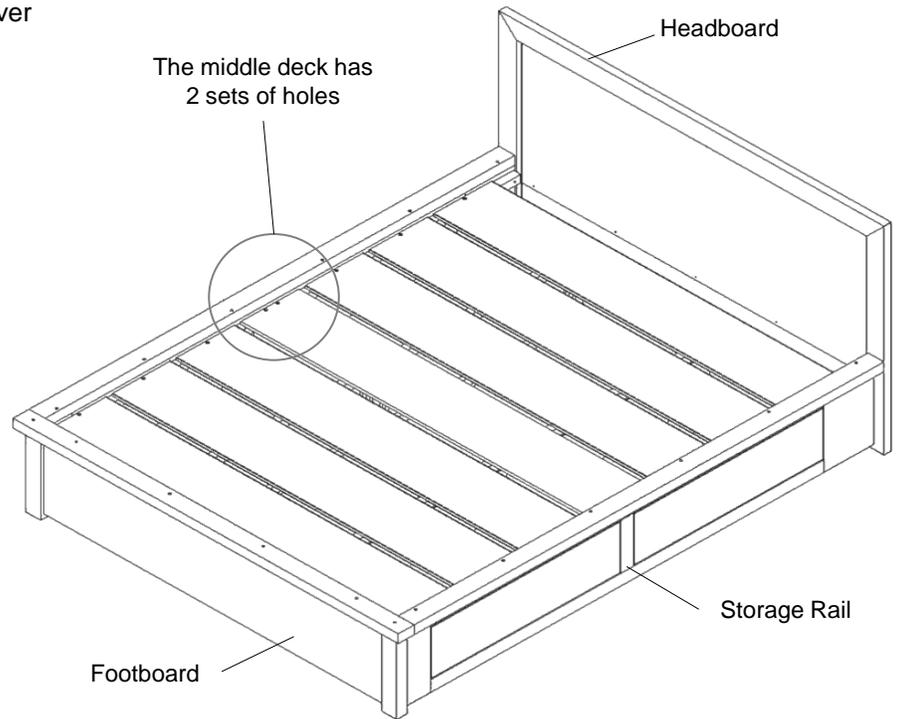

Tools required

Phillips head screw driver

Step 5: Install all decks

Attach the 5 remaining plywood decks across the top of the unit using the remaining 1 1/2" pan head screws. Note the center deck piece has 2 sets of holes side-by-side.

**Care Instructions**

To care for and preserve the finish on your new Copeland Furniture piece, please keep the following recommendations in mind.

- While our furniture has been finished with a durable top coat, the surface may be sensitive to dents and abrasions during the first 30 days in your home.
- Treat the surface finish gently so it does not dent or chip. Tape or stickers should not be put on the finish.
- For general care use a soft cloth to dust the furniture.
- Use damp cloth with a mild soap to clean-up spills or dirt. Dry the surface thoroughly.
- Please do not use any polishes, waxes or solvents to clean the surface of the furniture. This holds true for new Copeland Furniture pieces as well as items you may already have in your home.
- Please do not place any candles directly on the surface of your furniture. The perfumes and dyes in the candles may penetrate the finish.
- Beds must be disassembled before moving to avoid damage. Never attempt to move the bed while it is assembled.

Special Care Instructions for Cherry Furniture

Furniture crafted from cherry wood darkens with age. This change in color, from a reddish tan to a reddish brown, results from the natural oxidation of the wood when it is exposed to light. Objects left on a piece of cherry furniture for an extended period will retard this oxidation process and when removed, may leave a lighter colored outline of the object on the surface. With continued exposure to light, this color difference will eventually disappear and the wood will reach a mature even tone.
